

Message from,

Managing Director

“ It gives immense pleasure to me and my team in welcoming you all- be it customers, vendors, auditors, statutory authorities, well-wishers or employees etc. all. As we embark upon our journey to scale newer heights in terms of technology, innovation in line with latest world trend with a vision of global reach we feel confident in achieving highest customer satisfaction coupled with confidence of vendors and empowered, knowledgeable & vibrant employees we rededicate ourselves towards quality & safety of our products, our employees, our customers and transporters.

We also strive hard always and will continue to do so in achieving excellence in every field of our activities be it product and service quality, in time delivery, preserving environment & ensuring safety. Over the years we had kept pace with client requirement and technology upgradation of quality instruments, ensuring latest calibration instruments availability for achieving our quality goals and will continue to do so in achieving our global leadership goals. We have enviable reputation in providing site based service solving emergency & improvement needs of customers and we will leave no stones unturned in keeping our these efforts on a regular basis in future too.

For us customers are as important as our vendors and our employees. We will always give our priority to all of them. We will achieve these utilizing knowledge of our people and organization. Come, let all of us make full-fledged efforts to achieve our vision a reality. ”
